

The system is locking in. Pick a mark, and the kit ships.

01 · Palette shows Pita locked next to warmer + cooler variants — pick the final dial-in. **02 · Typography** still has all four pairings open. **03 · Marks** is the big decision — six abstract + wordmark concepts, each with a favicon-scale strip so you can judge tiny-size readability. The pita-pocket directions are unique enough to own. **04 · Asset Kit** previews the complete deliverable list (favicon, WhatsApp, Instagram, app icon, business card, motion) for the recommended winner.
